ValueOps AI Capabilities

### **Introducing Our New Capabilities**

# Vaia

The ValueOps artificial intelligence agent is the ultimate AI for Value Stream Management, built and trained to curate visibility, guide alignment, and augment efficiency across the enterprise.

### How Vaia Benefits the Enterprise

### Vaia adds skilled data scientists to your team

**Curated** Visibility

From concise summaries to a detailed answer for a specific question, Vaia curates the universe of your business-specific data to deliver the exact insights you need to make better decisions.

#### Vaia provides instant Agile and VSM Expertise

**Guided** Alignment

Instantly write more accurate objectives, stories, and features, or let an expert system guide your investment ideas with generative AI specifically built to interpret and manage value stream data.

€

#### Augmented Efficiency

Vaia allows you to delegate and focus on what matters

Free yourself from complex, timeconsuming VSM tasks such as assigning resources, predicting risks, or forecasting by augmenting your team with a smart, trained AI that does the job for you.
