

Andersen Windows & Doors | Clarity Reporting

RegoU Client Share | September 2025

Marissa Kropp | Senior IT Manager

Melanie Simmons | Principal Product Owner

Andersen Windows & Doors | Who are we?

North America's largest window & door manufacturer.

Today's Objective

Showcase how Andersen has leveraged the Clarity-PowerBI integration to **empower executive decision-making** through improved visibility, actionable insights, and strategic data planning.

Clarity Reporting | The 73-day Journey to Reporting

2024

September

- Hired Associate Portfolio Analyst (recent graduate)
- Provided initial requirements of resource mgmt reporting needs

October

- Met once with Rego PowerBI Team
 - Received training on where to download pre-made reports
 - Received ~4 hours of database table trainings
- Downloaded pre-made resource mgmt report & started editing to our specific requirements.
Download accelerated our learning of how data was model in database.

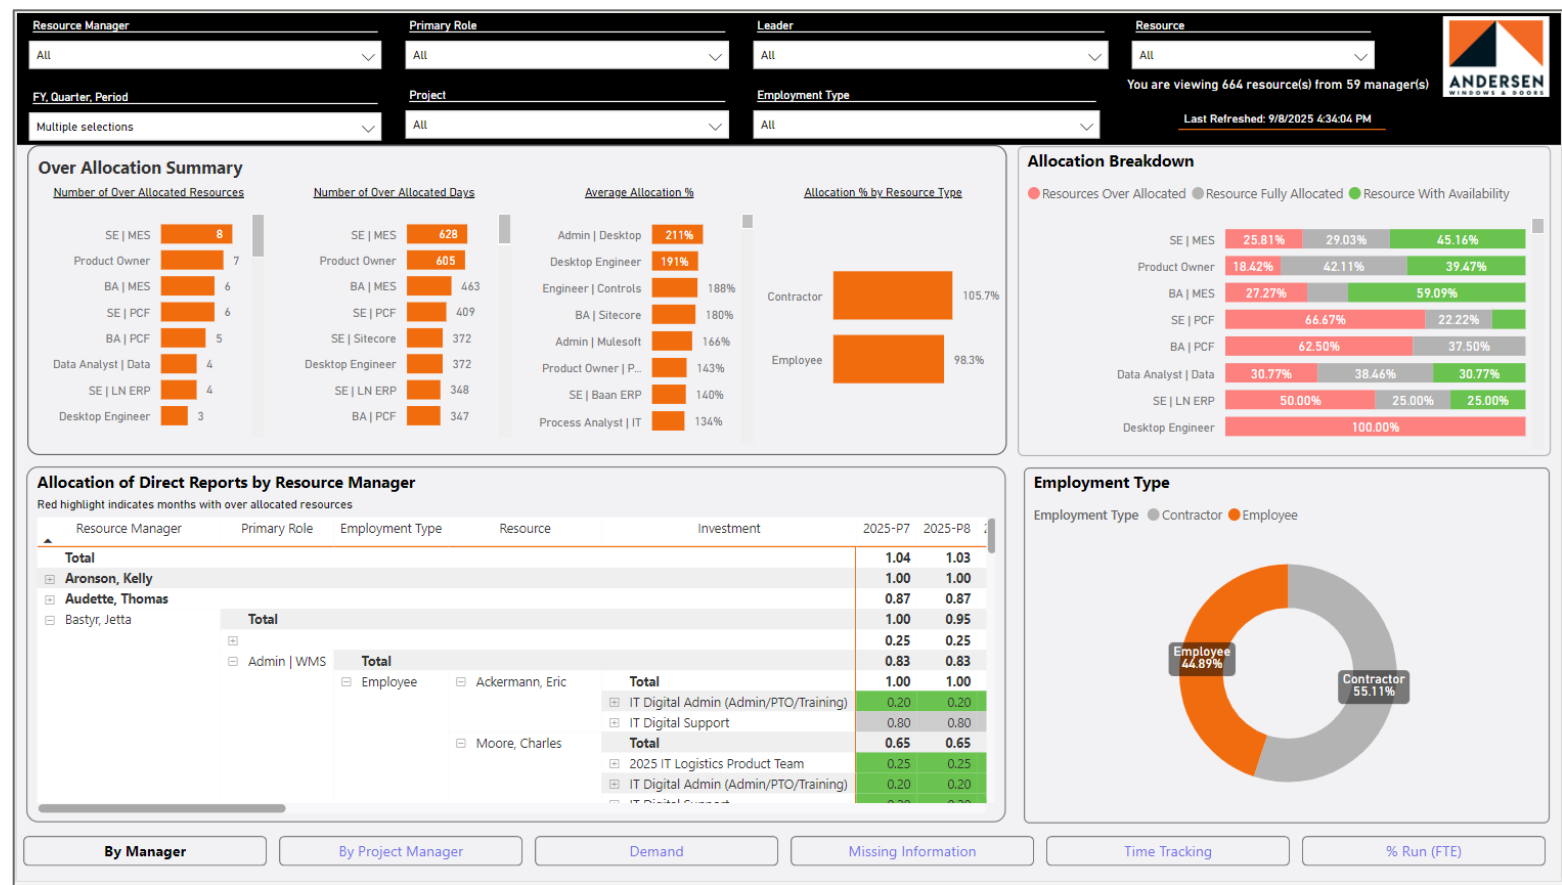

November

- Provided CIO Sr Leadership team with Portfolio reporting that drove 2025 prioritization of projects, demand/capacity & investment.

Please Note: Resource mgmt practice & processes were established prior to September 2024.

Clarity Reporting | Resource Management

Enabled reporting for ongoing maintenance & annual planning:

- Demand/Capacity Planning
- Cost Variance Analysis
- Skill gap identification

**Allowed reporting to be dynamic while workshopping.*

Clarity Reporting | Project Governance

Publish Expectations with Power BI & Power Automate

- Define and share clear expectations to ensure transparency, compliance, and consistency
- Use dashboards to track performance and adherence to standards
- Provide contributors with clear metrics for success

Clarity Reporting | Process Workflow

Provides a clear, visual breakdown of project workflows, including:

- Current statuses
- Volume of items in each stage
- Ownership & durations

Identifies bottlenecks & efficiency opportunities:

- Highlights stages with high task volume or long durations
- Improves handoffs for long approvals that slow progress
- Assists stakeholders in making data-driven decisions for where to invest in process improvements
