## Adoption Roundtable

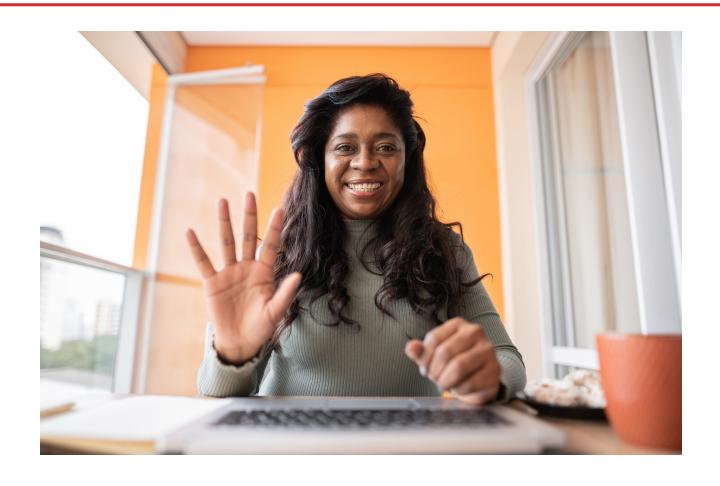

Your Guides:
Wes McCoubrie and Brian Hazelzet

## Introductions

• Take 5 Minutes

• Turn to a Person Near You

• Introduce Yourself

#### For Discussion Consideration ...

- Are adoption strategies at your organization formal or informal?
- Will you / did you implement Clarity with an understanding of who will monitor adoption and how?
- Are you measuring adoption? What metrics do you use? Do you share the metric with users to express value?
- If you did not see the adoption you wanted, what did you do to increase usage and data integrity?

#### For Discussion Consideration ...

- Does anyone survey end users for satisfaction in support of adoption? (Boom, we have a survey object for you!)
- Is adoption impacted by people that cannot access Clarity today? What is your strategy for non-Clarity users that need data?
- Are you investing enough in Clarity? Enough people internally and external help?
   See examples of support required for good adoption.

# Survey Module

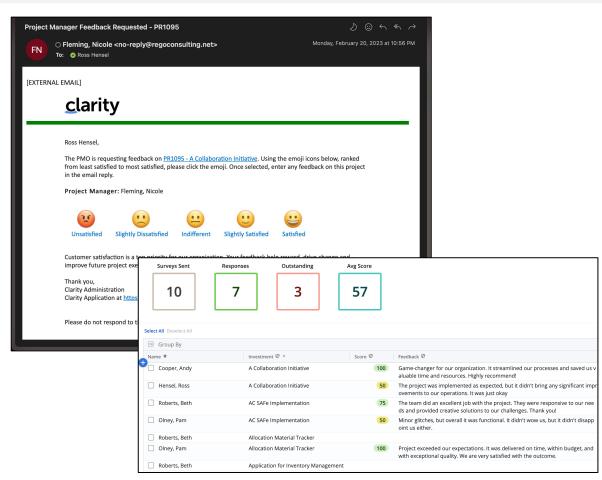

### Survey Module

Purpose: Allow clients to create feedback surveys to stakeholders and users from within Clarity, allow them to respond from email, and then aggregate and analyze that feedback.

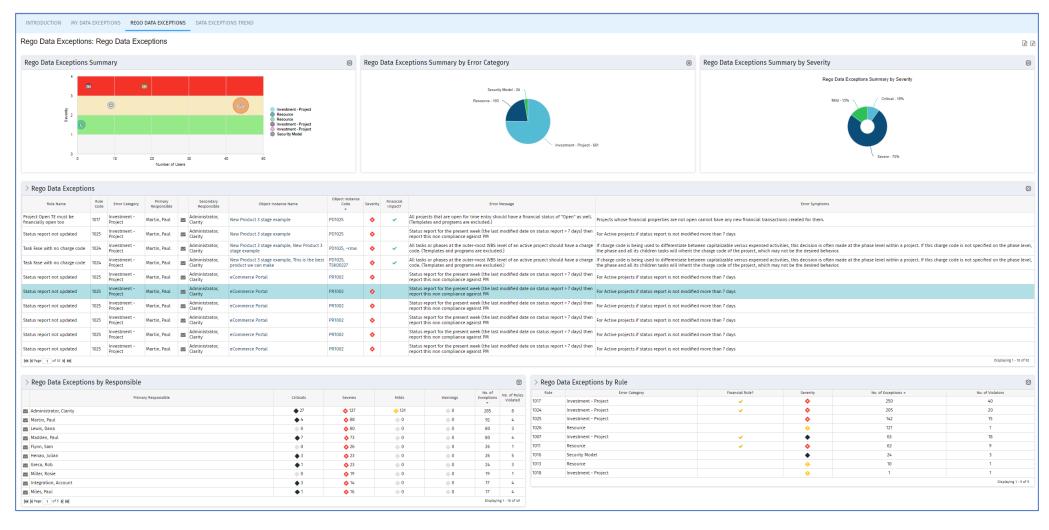

- Users respond to surveys directly within email
- 100% out-of-the-box capabilities so it works in SaaS and On-Premises
- Configurable questions and question types (icon, thumbs up/down, numbers, etc.)
- Responses are collected and analyzed via a Survey Dashboard
- Sample Surveys could include:
  - Application Feedback
  - Project Stakeholder on Closure
  - Project Stakeholder on Milestone
  - Process Feedback (ie: Ideation or Stage Gate Process)
  - Project Manager Feedback
  - Team Feedback
