

Monday Momentum Sessions

Want to get even more out of Rego University? These Monday Pre-Con sessions offer deep dives and practical takeaways in smaller, focused formats.

Name	Description	Time
Roadmap Hierarchy Class	Learn how to create, manage, and analyze investment data using Clarity's Hierarchies and Roadmap modules. This course will cover best practices setup of Hierarchies along with setting targets, planning, importing/syncing, selecting views, and printing Roadmaps.	1:00 - 4:00 pm
Super Lab!	Walk in and spend one-on-one time with a Clarity expert before the conference gets started. No need to rush or miss out on a class! Functional, technical, and PPM best practice experts will be waiting in the lab to dive into your questions.	Open from 1:00 - 5:00 pm
Hack-a-thon	Join this interactive session where we will work in small teams to build an end-to-end solution within Clarity Modern UX and then present back to the large group. A healthy amount of competition will be included so each team is motivated to configure a compelling design that meets - or maybe exceeds - the requirements. Each team will have a Rego guide to assist in planning the configuration.	2:00 - 4:00 pm
How to maximize your Rego U experience	This quick discussion will highlight tips for ensuring you will get the most out of your Rego University experience. We will discuss how to select classes, meet with peers, and obtain one on one advice over the 3 days of the conference.	4:30 - 5:00 pm
