Agenda

- My Experience with Ecosystem Assessments
- Problem Statements
- Solution Planning
- Roadmap Ahead

Ecosystem Assessments

People

- Well defined roles and responsibilities for optimal execution
- Alignment of location and skills to right roles to execute capabilities

Process

- Streamlined and standardized execution processes
- Standardized key decision points, handoffs, and interdependencies

Technology

- Aligned technologies that enable planning, execution, and measurement
- Ensure data interoperability across all platforms

Governance

- Clearly defined stewardship over platforms, solution capabilities, performance metrics, and execution
- Definition and compliance oversight of policies and regulatory requirements

Problem Statements

- Complex Governance
- Unclear Roles and Responsibilities
- Manual Processes & Handoffs
- No Single Source of Truth
- Fragmented Tooling Landscape

Solution Planning

- Complex Governance
 - Unclear Roles and Responsibilities
 - Manual Processes & Handoffs
 - No Single Source of Truth
 - Fragmented Tooling Landscape
- Scalable Governance - Run & Change
 - Clear Accountability and Traceability
 - Efficient and Automated Processes
 - Reusable Data, Realtime Visibility
 - Integrated Tooling Ecosystem

Roadmap Ahead
