Clarity Release Schedule

Release	Release Date (Actual/ Projected)	EOS Date
16.3.3 (25-PI-3)	August 11, 2025	November 30, 2027
16.4.0 (25-PI-4)	November 10, 2025	November 30, 2028
16.4.1 (26-PI-1)	February 9, 2026	November 30, 2028
16.4.2 (26-PI-2)	May 11, 2026	November 30, 2028
16.4.3 (26-PI-3)	August 10, 2026	November 30, 2028
16.5.0 (26-PI-4)	November 9, 2026	November 30, 2029

16.4.3 Features

Clarity Vaia — Agentic AI

- Model Context Protocol (MCP) tools run natively in the AI panel — no external client setup
- New “Current View” data source — agents read the on-screen grid
- Describe-based MCP server on OpenAPI 3.0 — schema-aware updates
- AI agents for Staffing and Pages workspaces

Modernizing Non-Labor Expense Tracking

- Units of Measure — precise quantity tracking on non-labor items
- Free-form descriptions group line items dynamically
- Automated cost plan population from non-labor data

New Non-Labor Workspaces and Modules

- Units of Measure administration grid
- Dedicated Non-Labor Investment module
- Work in Process transaction adjustments tab

16.4.3 Features

Data Warehouse and Rate Matrix

- New Data Warehouse (DWH) attributes for timesheet and investment reporting
- Rate Matrix is now exposed as a Data Provider in reporting
- Rate Matrix rates and costs available directly in the DWH
- Register grouping attributes in the DHW

General Enhancements

- Schedule hierarchy imports and roadmap syncs multiple times a day
- Build hierarchies linked to investments from blueprints
- Custom channels bring external tools into the Staffing workspace
- Consistent “Today” marker across all timeline layouts
- Pinned columns stay stable when using Views pane options
- Simplified screen layouts in high-contrast mode

16.4.3 Features

Reporting — Data Providers

- If/then conditional logic inside calculated attributes
- Combine join conditions with OR logic
- Object aliases reuse the same object multiple times
- User-defined filter parameters in data provider queries

Reporting — Report Designer

- Separate numerator and denominator filters on Progress Ring
- Explicit key mappings from parent reports to mapped subreports
- Display subreports on the same page
- Link support in expandable tree tables
- Interactively expand and collapse grouped tables
- Blueprint filter controls streamline end-user views

16.4.3 Features

Reporting — Export, OData, and Scheduling

- Export multi-tab reports to Excel with the new Tables (XLSX) layout
- Export high-volume reports of up to 1,000 pages
- Autofit tables and long text in attribute groups, on screen and in exports
- Preserve rich text and formatted notes exactly as they appear
- Export, schedule, and migrate reports with organizational breakdown structure (OBS) support
- Query SQL Curve data and character large object (CLOB) / rich text via OData, with guardrails
- Centralize report distribution and notifications via Actions Framework
- Report bursting delivers targeted output to each recipient
- Export report-level filter values and footer attributes when scheduling

Jaspersoft End-of-Life (Broadcom-Hosted)

Key Dates

- **Sept 11, 2026** — removed in the scheduled SaaS production upgrade
- **Sept 30, 2026** — formal end-of-life (EOL): no enhancements, support and SaaS access end
- **Nov 9, 2026 (16.5.0)** — Jaspersoft reporting is retired for all customers

What It Means

- **In 16.4.3:** hidden for BC SaaS — menus, jobs, and rights removed, schedules canceled
- **On-premise:** retains access this release only; ends with 16.5.0
- **Level 1 “as-is” support:** continues on-prem if installed before Sept 30, 2026
- **Out-of-the-box (OOTB) reports:** retained on upgrade, removed for new installs

Action: migrate Jaspersoft content to Clarity Reports before November 2026.

Jaspersoft EOL – Rego (AWS) Hosted

What Applies to Rego SaaS

- **Follows the on-premises terms ([here](#)):** not Broadcom's SaaS removal timeline
- **“As is” support continues:** no bug fixes, no software updates
- **Condition:** you must be on a supported, non-EOL Clarity version that supports Jaspersoft

Your Jaspersoft Environment

- **No server removal in September 2026** — Rego keeps your Jasper server running
- **Runs alongside new reporting:** dedicated server in Prod, in-app for non-Prod
- **Maintained** until you tell us it's no longer needed, or you move past 16.4.3
- **Reminder:** you control upgrades, but must stay on a supported Clarity version

Recommendation: begin moving to the new reporting service now to give users transition time.

Master Clarity with Rego University

Earn Certifications in
Administration, Leadership,
and Technical Proficiency

Let Rego be your guide.

Earn Rego University Certifications and Professional Specializations

Your participation in this class may count toward Rego University certification progress.

Certifications

Build recognized Clarity expertise.

Complete 10 eligible learning units within a certification track.

**Best Practice
Clarity Administrator**

**Best Practice
Clarity Lead**

Professional Specializations

Deepen your skills in focused topic areas.

Complete 4 eligible learning units within a selected specialization, with the option to earn multiple specializations.

**Artificial
Intelligence (AI)**

**Reporting &
Analytics**

Technical

Important: Complete the class survey in the app after each session so your credits can be tracked.
