Move fast, stay aligned, and build better together.
Get the Most of Your Jira Instance.

◆ Jira Software

Want to set up Jira Cloud or Jira Data Center for success using best practices?

Need to tame a Jira instance that has grown out control?

Kickstart your Jira Software® Success with Rego
In just 4 to 6 weeks, harness a comprehensive solution.

Optimize JIRA

- Lower Jira Administration costs
- Produce apples-to-apples data in aggregated tools with Clarity and Apptio via a standardized interface
- Utilize accessible information to support scalability
- Adjust base kit solutions, including fields and workflows, while adhering to Agile best practices and universally applicable scaling templates that support Kanban, Scrum, and Portfolio SAFe

Jira and Agile Coaching

- Learn best practices and strategies
- Utilize the latest capabilities and new features
- Partner with a Jira Software and Agile Expert Guides
- We are not just Jira Administrators. We are not just Agile Coaches. We are BOTH!

Quick-Start Setup

- Implement in just 4 to 6 weeks
- Identify a pilot group up to 50 people
- STATIK workshops to review and customize base kits

Customized Base Kits

- Fully architected Jira constructs that are easy to administer and scale
- Systematically documented solution from ideation to delivery in Confluence
- Customized solution and templates that support multiple Agile methodologies, including Kanban, Scrum, as well as Essential and Portfolio SAFe (Scaled Agile Framework)

Need a custom solution?
