Let Rego Be Your Guide

The Scrum Master Dojo
Creating Accountability for Continuous Improvement

? *Are you finding it difficult to see what work is planned, in progress, or completed?*

? *Is your team lacking accountability, with Scrum Masters acting more like facilitators than leaders driving improvement?*

? *Are your training sessions failing to produce lasting improvements, leaving your teams disengaged and unmotivated?*

★ **Tools alone won't fix these issues – but if your Scrum Masters implement best practices with your tools, then you can succeed, and these problems can be solved!**

Introducing Rego's Scrum Master Dojo!

Engaged Leadership:
The Scrum Master Dojo empowers Scrum Masters to lead as change agents, fostering a culture of continuous delivery and accountability.

Behavioral Shift:
This 12-week hands-on course embeds continuous practice with their daily tasks, ensuring that Scrum Masters make their team's work visible, transparent, and aligned with leadership goals.

Customized Process:
The Dojo adapts to your organization's unique needs, helping Scrum Masters create actionable reports, dashboards, and improvement roadmaps.

Improve Effectiveness Across Your Organization

Enhanced Visibility:

Gain real-time insights into planned, ongoing, and completed work, ensuring transparency across all levels of the organization.

Improved Delivery:

Boost team performance with continuous improvement processes, leading to faster speed-to-market and higher quality outcomes.

Clear Accountability:

Establish clear expectations for Scrum Masters, ensuring their value is visible and aligned with organizational objectives.

What Your Organization Gains

12 Weeks of Instruction: Tailored guidance for Scrum Masters, focusing on developing their leadership skills and technical abilities within your existing toolsets.

Custom Dashboards: Creation of dashboards like the **Backlog Health Dashboard**, providing transparency into team performance and future work plans.

Continuous Improvement Process: Establishment of a process that integrates continuous improvement into daily operations, enhancing both team and individual growth.

Scrum Master Roadmap: A personalized roadmap developed by each of your Scrum Masters, making visible their plans for continuous improvement of their team's agile maturity.

Scope of Service

Prerequisites: Scrum Masters should have at least one year of experience and hold a relevant certification (e.g., PSM, CSM, SSM or SASM). This is not Scrum Master 101.

Commitment: Leadership must ensure Scrum Masters have the capacity and support to fully engage in the Dojo, including completing homework and attending all 12 two-hour sessions. Sessions can be extended if necessary to integrate homework directly into the course.

Tool Access: Ensure attendees and instructors have access to current delivery toolsets for hands-on practice and dashboard creation.

Start now - minimize disruption and unlock continuous improvement!
