Let Rego Be Your Guide

Clarity Survey Module

Easily gather feedback at every stage of your project or portfolio management process, from ideation to delivery.

Are you struggling to get meaningful feedback from your customers and team members throughout your project lifecycle? Do you find it challenging to identify potential issues and improve satisfaction levels?

With Clarity's new Survey Module, you can easily gather feedback at every stage of your project or portfolio management process. This improves your approach and ensures that your customers' needs are being met throughout the lifecycle.

You'll also gain insights that expand beyond your projects. Improve your organization as team members share feedback about using applications, timesheets, workflows for converting ideas to projects, and working with project managers.

This module helps you:

- Provide a voice to your customers and team members
- Improve customer satisfaction
- Make data-driven decisions
- Quickly identify issues
- Continuously improve your project outcomes
- Foster effective team collaboration
- Increase efficiency
- Refine internal processes

Enhance your ability to gather feedback and drive success with:

Customizable Surveys

Create and customize surveys tailored to your organization's specific needs. The feedback gathered enables you to make informed decisions about their projects, processes, Clarity itself and team members.

Actionable Insights

By gathering feedback at every stage of a project, Clarity's survey module provides organizations with actionable insights that can be used to improve their processes, outcomes, and overall performance.

The Survey Module can be configured quickly. The only pre-requirement is Rego's Action Item Responder (AIR).
