

Project Portfolio Management Done Better

Clarity is better than Daptiv at every step of the process

Sick of constant setbacks due to rigid, overly complex PPM tools?

Organizing work, coordinating people, and hitting deadlines while ensuring nothing falls through the cracks is easier with seamless control across all your projects. Clarity simplifies project portfolio management, making it easy to unite teams and tackle the tasks that matter most. Whatever you're working on, Clarity can help.

Manage your projects your way, at any size

Connect planning with execution in one place so you stay on schedule and within budget. From simple tasks to complex initiatives, Clarity helps you plan, execute, and track everything effectively at scale.

- **Tailor projects to the specific requirements** of each initiative and customize views based on user's needs to monitor execution in real-time and capture contextual insights
- **Simplify collaboration with a unified, real-time view** of strategy and work, and update information to show only what's necessary at each project phase for a cleaner user experience
- **View cross-project dependencies**, customize reporting by project or entire portfolio, and prioritize work so everyone stays aligned and moves faster

Portfolio management, simplified

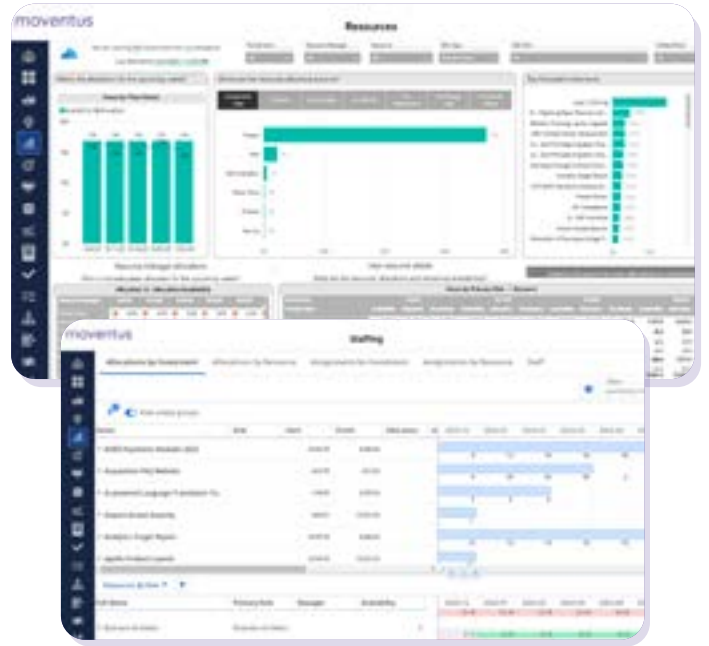

Plan and manage projects, resources, and investments effortlessly with a solution that adapts to your unique needs. Clarity helps streamline your processes and information, so say goodbye to tedious data entry and wasted time searching and consolidating across your tools.

- **Tailor projects, workflows, reports**, project views, and more with an intuitive drag-and-drop UI
- **Auto-create reports** to eliminate manual work and schedules to get the right people on the job-no coding required
- **Allocate admin resources** to focus on what matters most instead of helping manage a PPM tool

Execute smarter with greater project clarity

Getting the most out of your business at any size requires a full complement of robust project management capabilities. Clarity gives you all the tools to gain visibility into your business so you can get work done, without any expensive add-ons. With Clarity, everything you need to make strategic decisions, enhance transparency, and utilize resources more efficiently is included out of the box.

- **Capture data and manage work**, strategy, people, and money as you grow with a no-code solution that expands with you
- **Roll up relevant data points** across your portfolio to see exactly what's happening with your projects, resources, and budget
- **Create what-if scenarios** for different combinations of initiative, team, and budget changes to enhance planning and decision-making

Grow with Clarity

Clarity gives you visibility into your business so you can get work done. As an award-winning, industry-leading PPM platform, Clarity is trusted by Fortune enterprises and consistently ranked top by Gartner, GigaOm, and Forrester.

Clarity ensures optimal project visibility and success, fitting projects of any scale perfectly. Don't just manage – achieve success with Clarity.

Why Clarity?

Clarity is a SaaS project portfolio management (PPM) solution that helps businesses and teams gain better visibility, control, and productivity over their most important initiatives. Built on a top-ranked PPM platform and backed by Rego Consulting, the leader in PPM services and strategic advisors to more than 700 companies—Clarity is the most flexible, powerful, and simple-to-use PPM solution on the market. No matter what your organization looks like, our experts can customize Clarity to your needs and help you develop a strategy to deploy PPM and maximize value.
