Let Rego Be Your Guide

AGILE

# Rego's Clarity to Agile Connectors Are Now FREE

## Harness the Power of Clarity and Agile

Rego understands that Agile doesn't exist in a vacuum. That's why we have integrations specifically designed to interact with Clarity.

### Experience Where it Matters

With over 100 Agile connectors installed and running in Rego client environments today, Rego has the experience and expertise to connect Clarity with your Agile tool of choice. Our consultants are seasoned professionals, fully equipped to handle the obstacles or challenges your organization may be facing.

## Some of the benefits of using a Clarity to Agile connector

- Unlocks real-time visibility throughout the development lifecycle
- Generates an understanding of where people are spending their time
- Aligns development teams with approved funding investments
- Use Clarity as a "one-stop-shop" for monitoring funding, labor, and cost
- Reduces administrative overhead on developers
- Tracks and charges time in one tool instead of multiple

## Featured Connectors:
### (Available for both the Classic and Modern UX in Clarity)

**Rally** Software    Azure DevOps    Jira Software

## Streamline Planning, Development, and Agile Execution with Rego's Clarity to Agile Connectors
