Let Rego Be Your Guide

Rego PowerPoint Add-in

Tired of copying and pasting between Clarity and PowerPoint to create slides for stakeholders? Frustrated with time spent updating PowerPoint presentations?

There's a better way!

Now you can build PowerPoint slides quickly for your next meeting with this powerful PowerPoint Add-in. You can select from preset templates or quickly update existing presentations with the latest data.

How it works:

The templates allow you to seamlessly grab data from Clarity without having to actually log in. You can quickly create slide templates like:

Tables

Custom formatting

Charts

The Add-In keeps track of all your created slides and can be easily refreshed.

You can:

Pull Clarity data in real-time into preset PowerPoint template slides

Refresh that data when you need to for your next meeting

Eliminate the manual effort of copying and pasting from Clarity

Look professional and match slides to your organization's branding

Easily modify slides created by the Add-In

You'll get:

PowerPoint Add-in Installer

**Eight hours of
training/implementation
including:**

- Deployment of the add-in
- Build of one customized template slide tailored to your needs
- End user training for the add-in

**Pre-loaded slide
templates built by Rego**

Benefits to you:

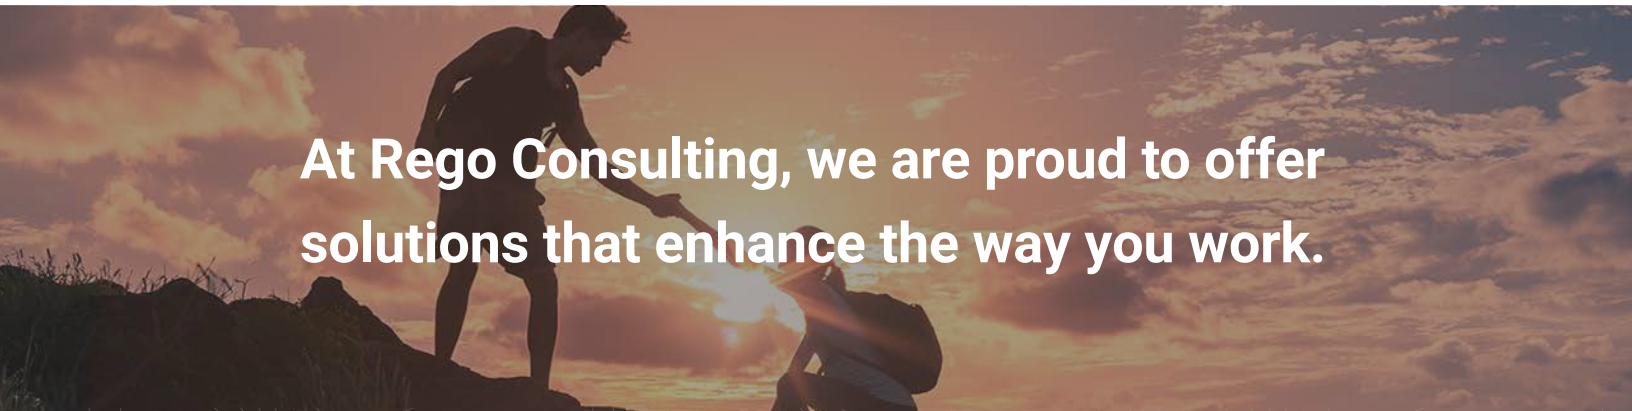

**A low, FIXED price with
no monthly fees**

**Seamlessly integrate
with Clarity and
build slides on the fly**

**Easy to modify and
match your
organization's style**

**At Rego Consulting, we are proud to offer
solutions that enhance the way you work.**
