Let Rego Be Your Guide

Achieve Seamless Collaboration with Microsoft SharePoint

Get work done faster and grow your business with consistent collaboration

Do your employees struggle to find the files they need, waste time re-creating documents, or get lost in a mess of duplicate data?

Is poor collaboration causing project delays and misalignment in your organization?

Rego can help you harness the power of Microsoft SharePoint to improve collaboration with:

Centralized Information Management: Enable your teams to quickly access the information they need, while reducing the risk of data duplication or loss.

Document Version Control: Empower everyone to work collaboratively on shared, up-to-date documents, and track revisions.

Secure Access and Permissions: Keep your organization's data secure by defining who can view, edit, or delete specific documents or folders.

Collaboration Tools: Bring everyone together to manage projects with tools like shared calendars, task lists, discussion boards, and wikis.

Integration with Office 365: Integrate seamlessly so employees can collaborate in tools they are already familiar with like Word, Excel, PowerPoint, and Outlook.

Why Choose Rego?

We have helped more than 60% of Fortune 500 companies on their software journeys. Our senior Microsoft consultants bring decades of real-world experience to maximize the rate of return on your SharePoint investment.

Rego's Tailored SharePoint Services:

SharePoint Assessment & Strategy Development:

Evaluate your current processes and receive a strategic SharePoint roadmap that aligns with your business goals.

Custom SharePoint Solutions:

Get personalized solutions including document libraries, workflows, and custom web parts.

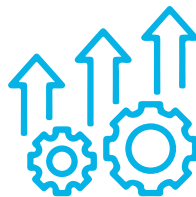

Governance and Compliance:

Establish governance policies for consistency and compliance, along with security and access controls.

User Training and Adoption:

Ensure adoption across your organization with comprehensive SharePoint training.
